BILL: _____

James H. Hockett Park Basketball Court and ADA Improvements

\$150,000 is requested to plan, design and construct a new basketball court, ADA improvements, trails and other park improvements at James H. Hockett Park in the East Mountains of Bernalillo County. The existing basketball court's concrete surfacing is cracked and damaged by weather and is no longer well suited for play. A new court is desired. ADA compliant parking, walkway and playground improvements are also needed to connect the parking area to the playground and provide acceptable surfacing within the play area. Lastly, an existing soft surface path within the park requires reconstruction. Altogether, these improvements will ensure that James H. Hockett Park continues to serve area residents of all ages and abilities.
