## **Mobile Community Center—“Rec and Roll”**

Bernalillo County requests \$200,000 to purchase, retrofit and equip a recreational vehicle, bus or cargo truck as a mobile community center. The “Rec and Roll” mobile would function as a community center on the go—bringing recreational equipment and programs to groups and residents that may not live near or have direct access to a parks and recreation facility. This request would cover the cost of acquiring the vehicle, retrofitting it to store recreational equipment and supplies, and the recreational equipment and supplies that would be provided to the public. The “Rec and Roll” mobile would be particularly suited to Bernalillo County’s District 3, a particularly dense urban area completely within the City of Albuquerque that is not served by Bernalillo County Parks and Recreation facilities.

Communities such as Boone County, KY and Milwaukee, WI utilize mobile community centers. These agencies provide sports equipment, crafts, games, library books, programs and other services to parks and recreation facilities, after-school programs, homeless shelters, low-income housing developments, churches, educational centers and similar facilities.
