BILL: _____

Paradise Hills Community Annex Landscaping

\$150,000 is requested to plan, design, and construct landscaping improvements at the Paradise Hills Community Center. These landscaping improvements would include irrigation and plant material; trails and paths; decorative gravel, crusher fine and other hardscape materials; and site furnishings such as benches and tables. Altogether, this landscaping would complement the current renovation of the PHCC Annex.

Bernalillo County is near completing an approximately \$800,000 renovation of the PHCC Annex, which increases the square footage from 3,472 to 5,746, boosts the building's energy efficiency and expands programming opportunities for Bernalillo County residents. PHCC Annex programming will provide activities and meals for seniors in the morning and early afternoon, and serve teens in the afternoon and evening.
