Franchise Fee Clarification

Bernalillo County is considering an ordinance to develop right-of-way use agreements with utilities and other persons desiring to place infrastructure and/or use Bernalillo County right-of-way for the provision of their services. Several sections in State Statute related to this topic are vague and lead to disagreement over potential methodology and processes for implementing this authorized regulation.

Bernalillo County is soliciting legislation to amend State Statute to clarify and resolve the current ambiguities such that counties have similar authority as municipalities.
