

20

Introductory Material

Volume 2 of the *City of Albuquerque Development Process Manual*, entitled *Design Criteria*, contains engineering design criteria and standards for the infrastructure system necessary to development in the *City of Albuquerque*. The volume also contains rules and specifications for development documents such as plats and construction plans and for surveys and monumentation associated with development in the *City of Albuquerque*.

- **Bernalillo County** utilizes the **New Mexico Standard Specifications for Public Works Construction**, current edition (published by the New Mexico chapter of the American Public Works Association).
- **Bernalillo County** has its own contract process. Contact **BCPWD** for information regarding construction-related contracts.
- **BCPWD** utilizes some standard details that differ from the **City of Albuquerque** standard details. Contact **BCPWD** for information regarding acceptable standard details.
- **BCPWD** utilizes most of the abbreviations listed in *Chapter 20* of the *DPM*.

VOLUME 2 TABLE OF CONTENTS

VOLUME 2: DESIGN CRITERIA

Chapter 20	Introductory Material
Chapter 21	Recordable and Development Documents
Chapter 22	Drainage, Flood Control and Erosion Control
Chapter 23	Transportation Design
Chapter 24	Sanitary Sewer Service Design Criteria
Chapter 25	Water System Design Criteria
Chapter 26	Surveys and Monumentation
Chapter 27	Drafting Standards
